

BTX Cloud Mobile Android App User Guide

Install

There are 2 ways to install the BTX Mobile App:

Using UC Client:

1. Under the application Module, select Mobile Download.
2. Scan the code using a QR Reader on your mobile device

CoreNexa Mobile Apps

Make and receive calls placed to your corporate phone number via smart phone.

1. Download the app

Search for 'CoreNexa' in the [Google Play Store](#), or scan the code for your device with a QR code reader.

Android

Directly from the App Store or Google Play Store

Download the CoreNexa Mobile app From the Google Play Store

Follow the instructions to install

Login

Once the app is installed on your device:

1. Tap the CoreNexa mobile Icon
2. On the sign in screen there are 2 ways to sign in:
 - a. Enter your username & password
 - b. Scan the QR code in UC Client

Client

Enter your username & password

Scan your personal QR code in UC Client

1. Log into UC Client
2. Navigate to "Other Applications" and select "Mobile Download"
3. Point your camera at the QR code beneath "Log into CoreNexa Mobile"

Navigating Around the App

The main screen is the list of menu options that provide all the functionality of the app.

As you click into each menu item, click on the menu icon

to be taken back to the

Landing

Screen

Once Logged in for the first time the app will land you on the default landing screen on the Dial pad. Subsequent visits will take you to the last menu option that you closed the app on.

From the landing screen you can perform the following:

- Make a call
- View your Call History
- View/edit your contacts
- Search by name, phone number or extension

Dial

Pad

Use the Dial pad to place calls

1. The following actions are available while on a call:
 - a. Mute
 - b. Dial Pad
 - c. Audio - switch between microphone, speaker and connected bluetooth devices
 - d. Hold

e. Record (if enabled)

f. Transfer

Audio

While on an active call you can switch between microphone, speaker and connected bluetooth devices.

To switch press the audio button and select which option you want to use by pressing that option

Call

Waiting

While on an active call you have the ability to receive a second inbound call. When the call arrives, you will be presented with a screen to make the following selection:

- Hold & Accept
- End & Accept
- Decline

Recent

Calls

Recent call provides a view of all incoming, outgoing, and missed calls.

At the top of the screen there are two tabs: All & Missed

- All will display all types of call activity
- Missed will provide only missed calls

Each entry will provide the following:

- Direction of call

- Name / Number
- Date & time
- Ability to call
- Ability to create contact

Contacts

Contacts are organized under 4 tabs:

- Favorites
 - Corporate
 - Personal
 - Local
1. To **favorite** a contact, click on the contact entry and select the Favorite icon

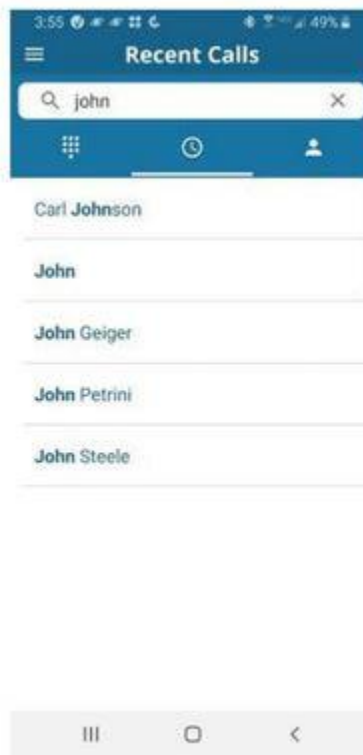

2. To **share** a contact, click on the contact entry and select the Share icon

3. To **call** a contact directly from the contact entry, press the phone icon

Search

Search through your Contacts and Recent Calls by Name, Company name, phone number or Extension. Start typing and all matches will appear. For example, if you type in john, then all matches that have John will appear. As you keep typing in additional numbers the search will narrow down.

Voicemail

1. Click on the Voicemail menu item to see your visual voicemail.

- The following information is available for each voicemail received
 - Caller ID: the name & number of the person that left you a voicemail
 - Date & time
 - voicemail transcription (if enabled)

2. The following actions are available for each voicemail:

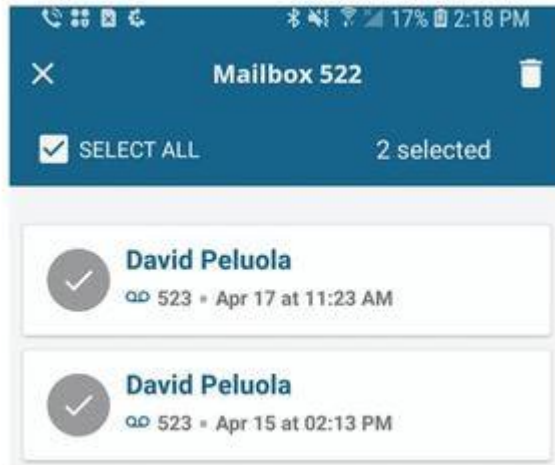

- Listen to voicemail
- Callback
- Send voicemail via email

- Delete by sliding voicemail entry to the left

- To delete multiple voicemails:
 - Click avatar of one of the voicemails for deletion. You will notice a checkbox
 - Select the other voicemail(s) you want to delete
 - Click Delete icon in the top right hand corner

- To delete all simply click Select All checkbox in the top left hand corner the icon

Changing Your Voicemail Greeting

1. To create/edit your voicemail Greeting, click Greeting in the top left hand corner

2. Select the mailbox from options. Select the greeting you wish to edit/create.

3. Tap the Record button to start/stop recording and click Save Changes at the bottom

Conference

Calls

Provides a quick and easy way you moderate or attend a conference call.

1. A list of all conference call rooms will be provided.
2. Simply find the conference call you wish to moderate or attend and select the Attendee or Moderator button. The call will be instantly connected.
3. if there is a conference call bridge you frequently join simply click on the star to make it a favorite and it will appear at the top of the list.

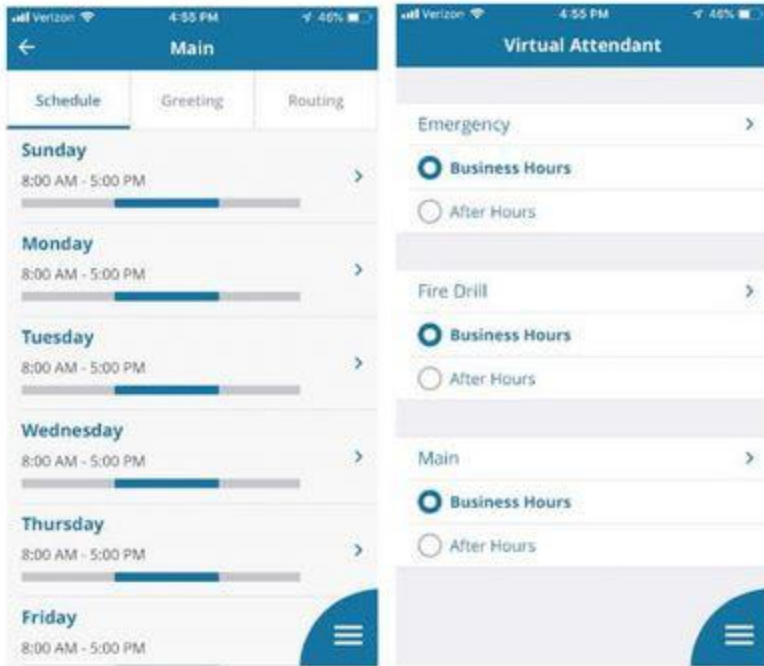

Virtual

Attendant

Virtual attendant serves as a virtual receptionist that greets customers while routing them to an available employee or to alternate devices of the employee they are trying to reach. The BTX Cloud CoreNexa mobile provides the ability to perform this directly from the app.

- Select the Virtual attendant
- Select the Business Hours or After Hours
- make changes to Schedule, Greeting, or Routing

Settings

Control

Data

Usage

if you want to control your data usage while using the CoreNexa Mobile app, you can select the desired data network with which to make and receive calls.
